Mohammed Rahman

Aspiring Software Developer & Former Healthcare Professional

I am a motivated Software Developer in training, actively participating in the Skills Bootcamp for Front-End Web Development & UX by EdX. My GitHub repository showcases a diverse range of projects, employing technologies such as HTML, CSS, Bootstrap, and JavaScript, with a forthcoming project utilizing React. My professional background is rooted in Healthcare, where I have amassed extensive experience in roles such as Data Management, Recruitment & Screening, and Clinical Trial Management.
